June, 2025

To whom it may concern;

My name is Laetitia Younes Bittar. I am thirty-seven years old.

Being an optimistic person with a good ambition, what interests me the most, is to be in a place where I can work seriously, gain knowledge, meet interesting people, and feel helpful and useful through the work I accomplish.

I've learned the importance of team work, commitment and of course patience.
What interests me now is to move forward, to find a new challenge and to improve myself.

Thank you for your attention and cooperation.

Best regards

Laetitia Younes Bittar
